# Retinol delivers Vitamin A

Retinol is a popular cosmetic ingredient in the retinoid family. Retinoids are a class of synthetic and naturally occurring Vitamin A compounds and derivatives.<sup>1</sup>

## A broad spectrum of applications

Topical retinol:

- Has been used in cosmetic products for more than 30 years<sup>2</sup>
- Can help diminish the appearance of fine lines, wrinkles, and photoageing<sup>3,4,\*†</sup>
- Has a favorable tolerability profile, although some patients experience minimal skin redness and irritation<sup>2</sup>

\*Study results for daily application of the Obagi360 System in a 12-week study; N=40.

†Based on a 3-week facial irritation study; N=33.

## Obagi offers 2 retinol concentrations to suit patient needs

Obagi Retinol 0.5<sup>‡</sup>

Obagi Retinol 1.0

## Helpful naturally-derived ingredients

- Shea butter: moisturises and helps condition the skin<sup>5</sup>
- Chamomile flower extract: soothes and calms skin<sup>6</sup>
- Bisabolol: supports skin barrier by providing a soothing, calming effect<sup>7,8</sup>
- Dipotassium glycyrrhizate (licorice extract): helps calm skin while helping maintain radiant and resilient-looking skin<sup>7</sup>

<sup>‡</sup>Also sold as part of the Obagi360™ System.

## Tolerability is favourable

- Non-acnegenic
- Dermatologist tested
- Minimal to no skin redness, dryness, flaking and irritation, even with stronger Obagi Retinol 1.0 formulation<sup>4,†</sup>

## Rejuvenating results you can see
