SKIN

#InspiredByYou

SMOOTH. RADIANT. HYDRATED.

Want fabulous, younger looking skin? Restylane® Skinboosters™ give your skin a dewy, smooth and more radiant appearance.¹ They moisturise and strengthen your skin from within, improving its texture and elasticity. Bring a youthful glow back to your face, neck, chest and hands with Restylane® Skinboosters™.

Before treatment

After treatment

FAQs

1. DO SKINBOOSTERS HURT?

Our ultra-fine needles are designed to minimise discomfort. Your healthcare practitioner may also apply a topical anaesthetic cream to your skin to make treatment more comfortable.

2. DO I NEED TO HAVE THREE TREATMENTS?

To get the most out of Restylane® Skinboosters™, it is recommended you have 3 treatments, 2-4 weeks apart, even though you'll start to see visible improvements after the first treatment.

3. ARE THERE ANY SIDE EFFECTS?

The most common side effects are treatment site reactions like swelling, bruising, redness and tenderness. These usually resolve within a week.

4. SHOULD I AVOID ANYTHING AFTER TREATMENT?

Until signs of inflammation disappear we recommend you avoid exposing the treated area to extreme heat like sunbathing, saunas or steam baths.

5. WHAT'S THE DIFFERENCE BETWEEN PRODUCTS?

Restylane® Skinboosters™ are made of hyaluronic acid (HA), a naturally occurring sugar in the skin that's responsible for hydration. In fact, Restylane® Skinboosters™ is recognised as the original stabilised Hyaluronic Acid based injectable to improve skin quality, which means we have years of experience in giving you the results you desire.

6. HOW IS TREATMENT ADMINISTERED?

Although treatment can be administered via a needle, we recommend using a cannula (a flexible, blunt-ended tube). While needles offer more precision, cannulas reduce the likelihood of bruising and are less painful. Restylane® Skinboosters™ come with the SmartClick™ system offering improved accuracy and consistency.

If you are concerned about any unexpected complications or side effects, contact your clinician. Adverse events should also be reported to: Galderma (UK) Ltd, Meriden House, 69-71 Clarendon Road, Watford, Hertfordshire, WD17 1DS
Switchboard: +44(0)1923 208950 Email: info.uk@galderma.com.
